

"Facilitating sustainable growth"

CLIC INNOVATION

"a non-profit cluster management organization"

CLIC

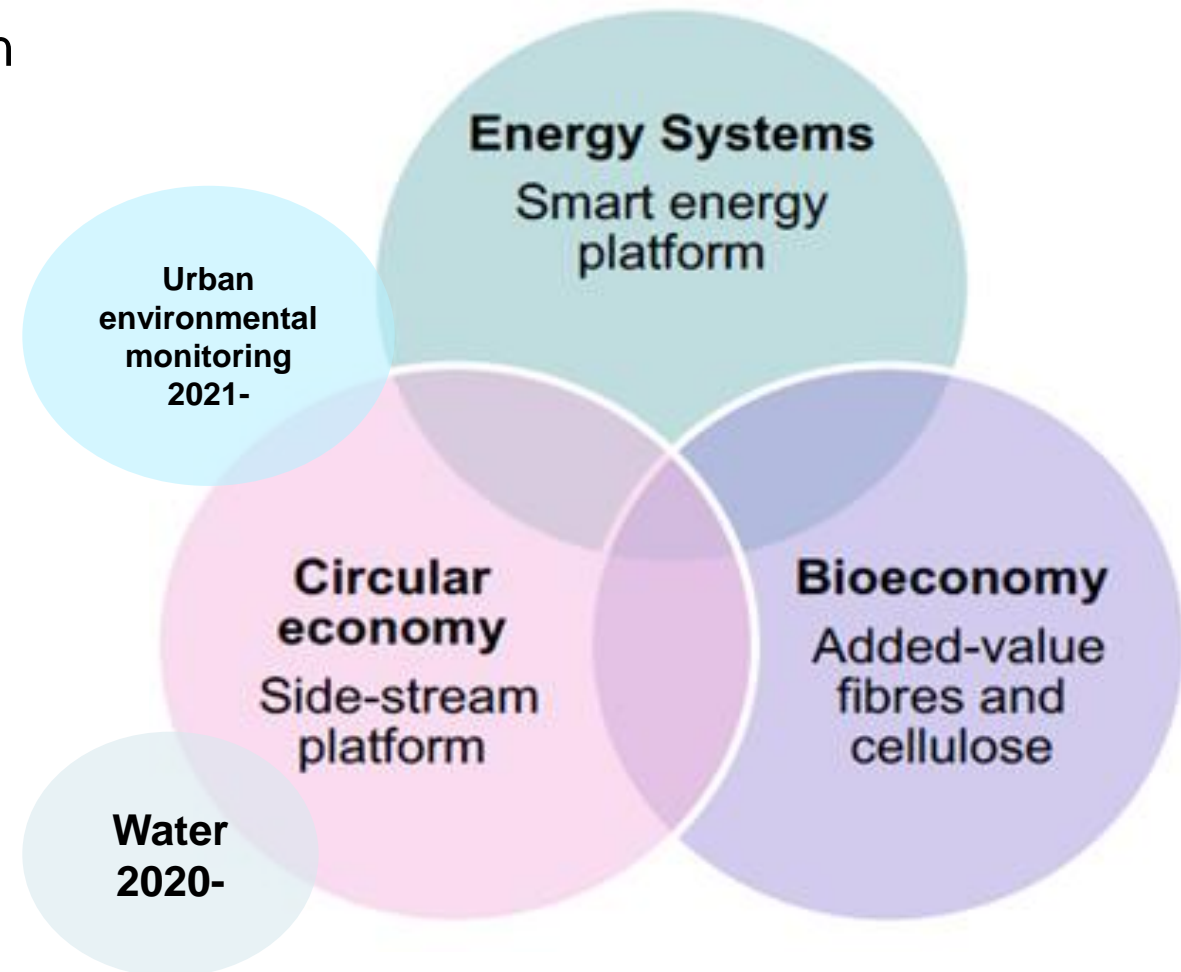

CLIC Innovation, the company

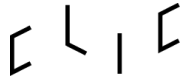

- Our owners (46) are multinational companies and research organisations present in Finland
- We are a public-private partnership for creating **sustainable solutions**
- Focuses selected based on **global business needs** and opportunities facilitated by science
- Efficient practices for managing **research and innovation co-operation** in an **open innovation spirit**

CLIC Innovation, in practice

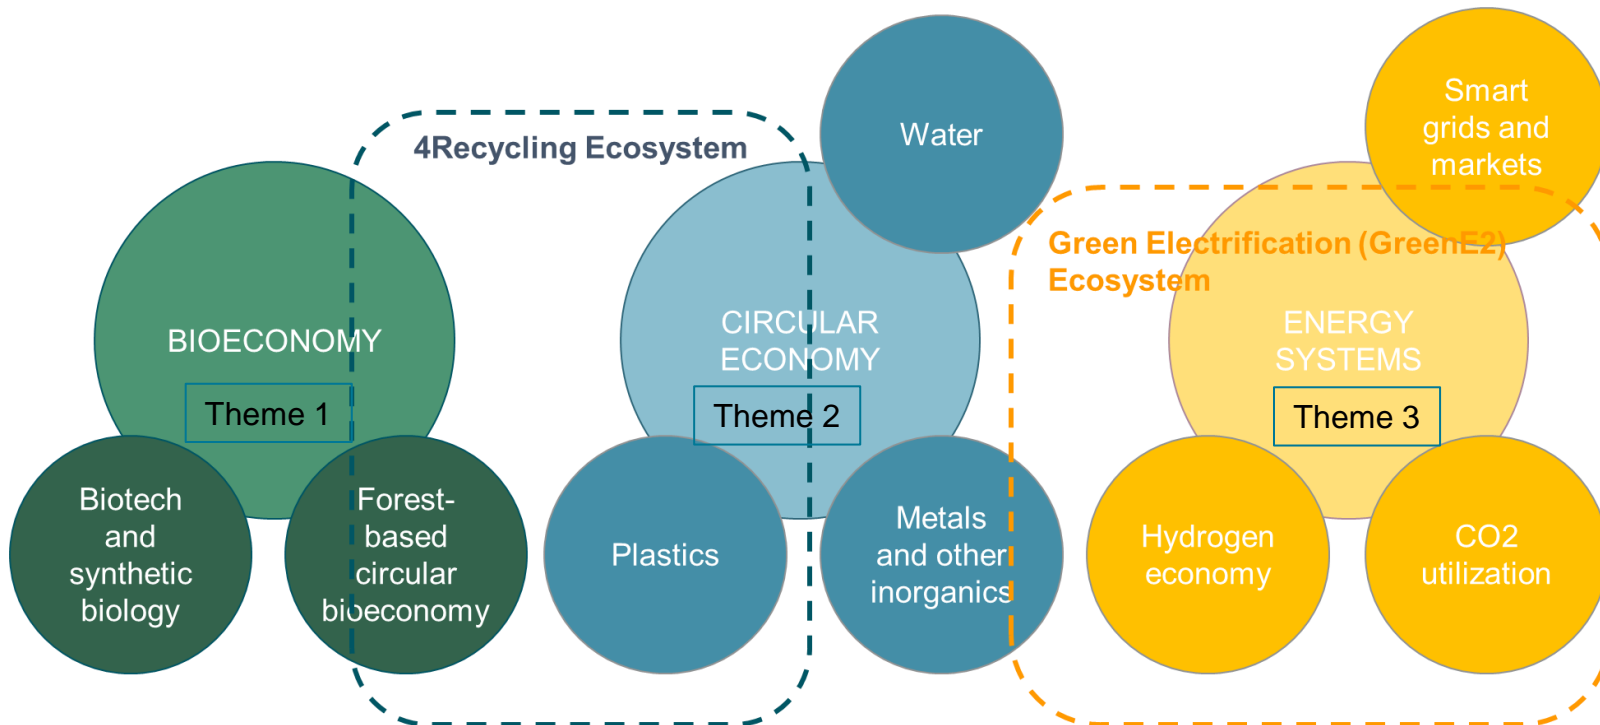

- We build and manage research and innovation collaboration between **companies** and **academia**
- We build **networks, partnerships and projects** for creation of new knowledge and solutions
- We operate in **pre-competitive topics**
- We operate **across different industrial sectors and scientific disciplines**
- Our focus areas are **bioeconomy, circular economy and energy systems**

Our current thematic groups and ecosystems

Our current themes, sub-topics and innovation ecosystems

'NEW' in 2021:

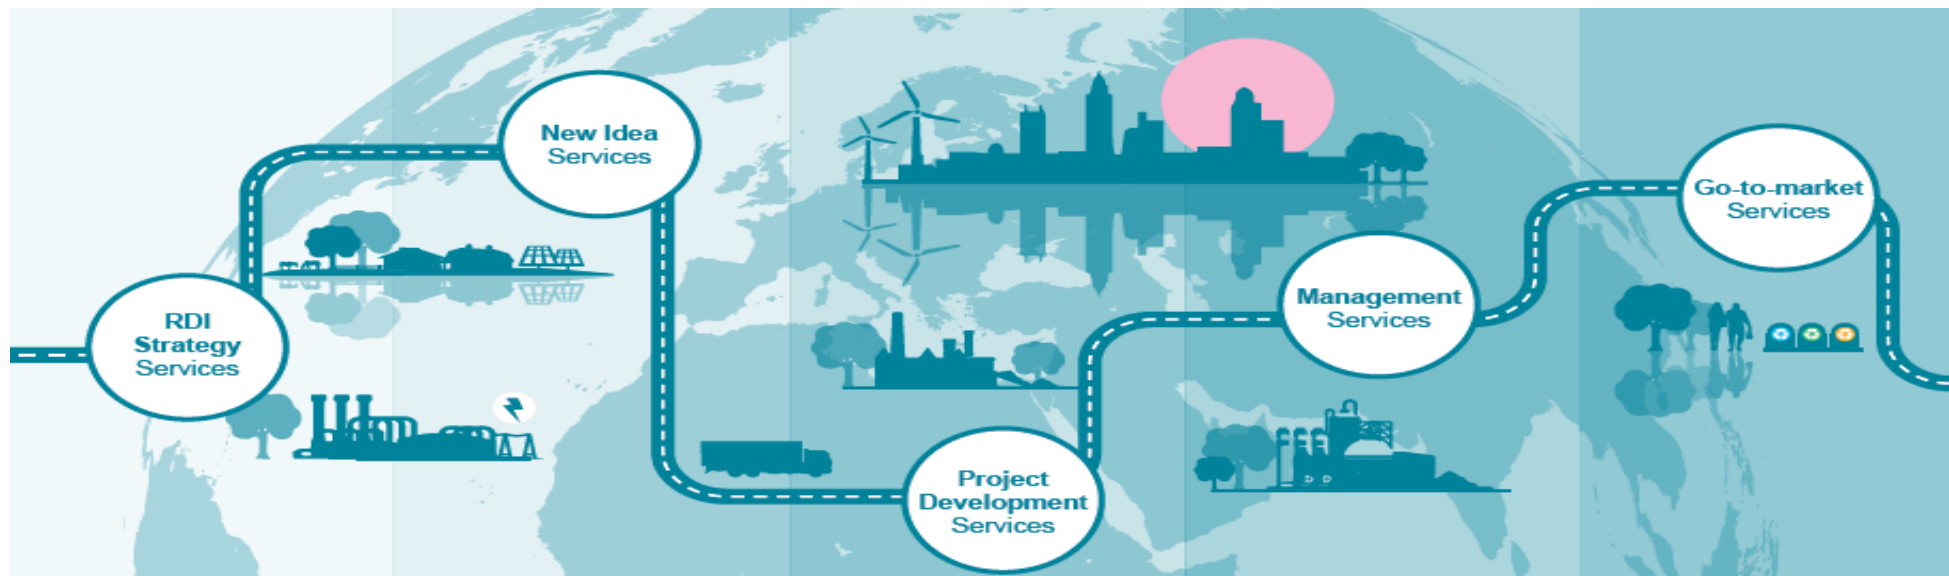

Ecosystem operations

- On top of theme activities, we have two ecosystems operating across the industries to tackle systemic challenges
 - **GreenE² ecosystem**: GreenE² is an open innovation ecosystem for all companies and organizations which are interested in developing knowhow and business opportunities related to power-to-X-to-power and products
 - **4Recycling ecosystem**: ecosystem develops a sustainable material market for carbon-based materials that is supported by a sustainable material recycling system
